- **Frontend** : React, NextJS, Tailwind CSS, Figma
- **Backend** : NodeJS, MongoDB, ExpressJS
- **Tools** : Postman, Git, GitHub, Cloudinary, VS Code, Terminal

## Projects

### Sports Networking Platform | [notdoneyet.vercel.app](https://notdoneyet.vercel.app) | [Code](#)

- Created a platform to **address career challenges** and **foster collaboration** among **athletes**, **doctors**, **venue owners**, and **sports brands**.
- Facilitated **networking opportunities** for athletes to connect with mentors, receive guidance and showcase their achievements.
- Implemented features for venue owners to **list facilities**, **manage bookings**, and for sports brands to showcase and **sell products**, expanding their reach within the sports community.
- Developed distinct user roles with **tailored dashboards**, **integrated modals for streamlined management**, and incorporated a **chat feature** for user communication.

#### Tech Stack :

TypeScript, NextJS, MongoDB, Nodejs, Tailwind CSS, ShadCN, Cloudinary, Zod

### Galaxy Grow | Freelancing | [galaxygrow.in](https://galaxygrow.in)

- I have closely worked with the client, used **Figma** for early design stages and incorporating their input into the development process with ease to produce a polished, user-focused final product.
- Engineered a complete solution for small scale businesses to help them get more **online reach** and **generate leads**. Implemented features things like vendor, admin **dashboards** for management.
- Built **APIs** that cover businesses, vendors, users, and authentication and **tested** them using postman to guarantee **efficient data flow** and **flawless performance**.
- Attained remarkable SEO results, **99 SEO**, **98 Accessibility** score on Google PageSpeed Insights, by carefully **optimising** the structure of the website and using the Schema.org **schemas**. **OpenAI's APIs** were used to generate SEO-friendly content with accuracy.

#### Tech Stack :

JavaScript, React, Tailwind CSS, Node.js, Postman, MongoDB, Cloudinary, Maps API, OpenAI API

### Infraterio | Freelancing | [infraterio.netlify.app](https://infraterio.netlify.app) | [Code](#)

- Used HTML, CSS, Bootstrap and JavaScript to transform a UI design into a fully functioning sanitary products e-commerce website.
- Created seven pages with complex user interfaces to facilitate easy sanitary goods online purchase.

#### Tech Stack :

HTLM, CSS, JavaScript, Bootstrap

**Ecommerce Website** | [ecommerce6622.vercel.app](https://ecommerce6622.vercel.app) | [Code](#)

- Developed a comprehensive **Ecommerce platform** using **React**, created features like Filter, Search, Cart, Dashboard with previous orders and analytics from scratch and used **Redux** for state management of the app.

**Tech Stack :**

React, Tailwind CSS, Redux

## Certificates

---

Meta Frontend Developer, **Meta/Coursera**

Full stack MERN Bootcamp, **Learn Code Online**

Programming with JavaScript, **Coursera**

Figma UI UX Essentials, **Udemy**

## Competitions, Volunteering and Achievements

---

- 5+ hackathons (offline and online) **4th place** in the **Regional Round** of the **GFG Solving For India** Hackathon.
- Conducted a **session on version control systems** such as **Git**, which included **essential ideas** and **hands-on demos**.
- My team and I arranged a **full-fledged tech fest** at my college, which included developing all **posters** and **banners**, organising, designing **hackathons**, and **managing** the event.
- Co-founded the NGO "**Hero for Fun**" to serve our society. Under this initiative, contributed to **10 dog rescues**, **15 sterilizations**, established a **network of 50+ auto drivers** for animal rescue, organized a **self-defense BootCamp** at **NIT Warangal**, and facilitated interactive sessions at Cheers Foundation orphanage.
- **45,000 lines** of code written, **400+** Canva Designs.
